Annoying Kidney Ills

Make Life Miserable for Many Norway People

There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented and what with the burning and scalding, the attendant backache, headache and dizziness, life is indeed a burden. Doan's Kidney Pills have given peace and comfort to many Norway people. Profit by this Norway resident's experience.

John P. Sampson, prop. painting establishment, 174 Main St., says: "I was feeling run down and miserable. I was tired and nervous and my kidneys didn't act regularly. At times the secretions passed so frequently, then again they were scanty. My head ached night and day. A friend advised me to try Doan's Kidney Pills so I sent to Stone's Drug Store for them. When I had finished taking Doan's, the trouble left and I have not been bothered since. I can certainly recommend Doan's Kidney Pills to anyone afflicted likewise."

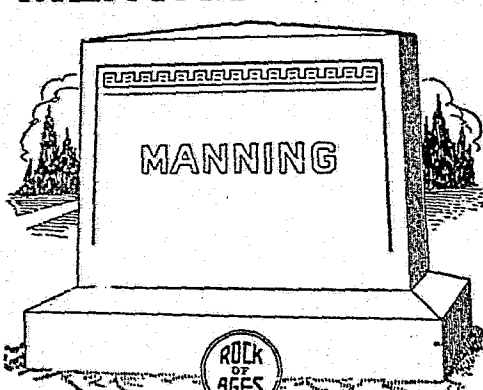

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sampson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Your Lights Free For Life

To certain of its customers, Central Maine Power Company has a unique partnership offer to make. If you accept this offer your lights, in effect, will as long as you live cost you nothing. You will not even get any bills. Once each quarter, the Company will send you a receipted bill—and a check.

The offer is open only to customers. It can be taken ad-

vantage of only by those who have at least \$500 saved. It will be open just five working days—May 25, 26, 28, 29, 31.

We are not going to explain the plan here—but any employee of Central Maine Power Company will gladly explain it to you. Because this offer is an opportunity for a partnership in the electric business, perhaps you will be interested in the future of this business. Here is what Steinmetz says about it:

Electrical development . . . is ready for the biggest things that industry can offer. Half a century ago electricity turned no wheel anywhere, nor lighted any street. Pull the electric wires out of the world today and our civilization would look like a sieve.

What will electricity do for us yet? It will do whatever energy can do for us.

Electricity is energy and energy is the basis of civilization. We have always had to have it and always will.

We call this the age of electricity, but it isn't. The age of electricity has not begun. All we have done yet is but preparatory to the ushering in of the electrical age.

---Steinmetz in Hearst's International Magazine

Whatever may have been the failings of Central Maine Power Company, a lack of vision of the future of electricity has never been one of them.

The Company was started as a protest against a lack of vision—as a protest against the belief that there was no future for electricity.

When, years ago, an electrical expert investigated Waterville and reported that the city was saturated with electricity and could buy no more, the Company replied, "Bosh"—and lived to see the demand there double and double again.

OUR JOB—SO WE DID IT

When, in war times, a demand existed for more and more electric energy, Central Maine Power Company built a plant. People said it was no time to build a power plant—but the territory we served needed more power—and our job was to supply it, so we did the job.

When the war ended and the demand still grew, people said, "The boom will end—if you develop more power you'll have it left on your hands."

We did develop more power—we built the Skowhegan station—and the boom ended—and, instead of less demand for power, the mounting demand sopped up every bit that Skowhegan could develop and cried for more.

Within the past twelve months we have rebuilt a plant at Waterville, have added another unit at Skowhegan.

What vast sums of money it takes to provide for the growing electrical needs of the territory is hard for the public to realize.

THIS MUST BE DONE

In the next twelve months, just to stay ahead of the mounting demand for power, the Company must build a power station at Union, Maine, to supply Knox County.

It must put a new unit in its power plant at Deer Rips, must put a new steam turbine in its Lewiston station, a new unit in its Norway station, must rebuild the cascade plant at Oakland.

To pay for these new power developments, for new buildings, for new line and switching equipment, for rural line extensions and to pay for the transformers and equipment necessary to hook

up new customers, will require within the next twelve months the expenditure of close to two million dollars.

Few people have the faintest idea of the vast amount of sound, solid property that is each year being built by Central Maine Power Company—not primarily for the purpose of making more money, but rather for the purpose of doing our job.

MORE PROPERTY—MORE EARNINGS

This new property goes to work at once bringing in earnings—for the people of Maine, like people the world over—are willing to pay a fair price for a good service.

The year the Company started, it earned less than \$2,000 (gross).

In 1910 the earnings passed \$100,000.

In 1912 they were a half million.

Not Our Job—But Yours

" . . . the new money that public utility companies require . . . does not go far for the purpose of making more money for the people who have already invested their money in the business. . . . the new money is not to enhance the value of the property . . . but it is to take care of the additional service that YOU PEOPLE ARE CALLING FOR.

"It is important to YOU, . . . when these utilities call for this capital to enlarge their plants to take care of YOUR growth and YOUR future business, THAT THEY GET IT.

"It is infinitely more important to you than it is to the utilities, that they get it."

E. K. HALL, in speech before Boston Chamber of Commerce.

In 1917 they passed the million mark.

In 1920 they passed the two million mark.

In 1921 they passed the three million mark.

In 1923 they will, at the present rate of increase, pass the four million dollar mark.

TO WORK—TO SERVE!

It is on the strength of what we have done—of the service we have tried to give—on the vast amount of property we have bought and built—of the steady earnings of the Company—of the big work that is ahead of us—that we continue to go to the customers of the Company and to offer them a partnership in the enterprise, through the purchase of our 7 per cent. preferred stock.

It is with absolute honesty and sincerity that we say: We believe, for Maine People, our preferred stock offers the BEST POSSIBLE INVESTMENT. It gives you a share in the building up of the State. It gives you a share in the earnings of Maine power. It gives you a security with an unbroken 17-year dividend record. It makes you a partner with over 10,000 other Maine people—joined in one Maine company to do Maine's work.

We are only on the threshold of the electrical era. Maine with its adequate supply of electrical power awaiting development, can prosper in spite of its location, if Maine people will put their money to work developing Maine power.

ARE YOUR DOLLARS TRAITORS?

Think of this and then ask yourself: "Are my dollars doing their part or are they slacker dollars? Are they lying idle in this time of need,—have they turned traitor to Maine and thrown their power behind some rival state—or are they here at home in Maine as I am, working as I am to make it a better, richer, finer State?"

And so, if an employee of Central Maine Power Company comes to you and asks you, "Why don't you get your lights free for life?" remember that there are more possibilities to the plan than the mere saving of money and trouble. Any employee can tell you about it.

BRYANT'S POND**Emogene Day Fatum**

The community was greatly saddened the sudden passing of Emogene Day Fatum, at the age of 68 years, 4 months and seventeen days.

She was born on Dec. 27, 1855 and passed to the higher life Monday morning May, the 14th. She was the youngest of four children of the late Elijah and Mahala Jackson Day and was married to James H. Fatum of this place fifty years ago the 13th of next December.

There were born to them seven children all of whom are living except the oldest son, Charles H. There are eleven grandchildren living. She also cared for three of Charles' children having the youngest, Rita with her at the time of her passing. She was respected and loved by all, a kind neighbor, a true friend, a woman of true worth and great courage to meet the hardships and sorrows of this earthly life. She was tenderly cared for by her children through her short illness her daughters being with her from the first, and all of them with her the last days.

The floral tributes were many and beautiful showing the love and respect of all who knew her. She leaves a husband, children, grandchildren, one brother, James M. Day and a host of friends, who will miss her and although we cannot see her, or clasp her hand, we know she lives, that the reward of a virtuous woman whose price is far above Rubies is hers and that she rests from her labors and her works, do Praise her within the gates.

RELIGIOUS THOUGHTS**The Love That Saves**

For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish but have everlasting life.—John 3: 16.

RIGHT REASONING:—Let us reason together, saith the Lord: though your sins be as scarlet, they shall be as white as snow.—Isa. 1: 18.

FRUIT OF THE SPIRIT:—Love, Joy, peace, longsuffering, gentleness, goodness, faith, meekness, temperance: against such there is no law.—Gal. 5: 22, 23.

CHRISTIAN CONFIDENCE:—This is the confidence that we have in him, that if we ask anything according to his will, he heareth us.—1 John 5: 14.

The VETERAN MOTORIST gives a few rules of the road

"A vehicle, overtaking another, shall pass to the left, but must not interfere with traffic from the opposite direction, nor pull over to the right before entirely clear of the overtaken vehicle."
(Council of National Defense)

I'VE picked up a lot of motoring experience since I first drove the old two-cylinder bus 'way back

in—guess it must have been around 1906 or '07. And there are two rules of the road that I've always stuck to. 'Safety first' is one of them, and 'consideration for the other fellow' is the second.

"I really believe that it's because I have stuck to them that I haven't had a single smash-up. (Three taps on wood, as I write this!) Just take the matter of passing a car. Simple enough—sure. And the driver that uses common sense and a little consideration never has any trouble. But this habit—and it's mostly a habit—of always trying to get ahead of the fellow in front of you is the cause of more close shaves and real accidents than any other one thing I know of.

"Make sure there's plenty of room ahead of the car you're going to pass. And remember—it's bad business to pass a car near the top of a hill, or on a curve. In fact, it's against the law in some States to pass another car on a curve."

NORWAY,

So convenient, so clean, so easy ---the Hot Point Electric Range

You are cordially invited to a practical demonstration of electric cookery at our Norway store which will continue until Saturday night, May 26. Miss Hallowell of the Hot Point Hughes Company will be there to tell you anything you want to know about "electric cookery."

CONVENIENCE is the word that best describes the advantages of the Hot Point Hughes Electric Range—for it elevates cooking to a science and does away with all the unpleasant features.

Convenient because it is so clean. No kindlings, no ashes, no dirt, no soot—nothing to soil the cooking dishes, or the walls, or the air.

Convenient because it is so easy. At the moment you want heat you turn a button. To increase or decrease the heat, or to stop it—you simply turn a button. You do not have to coax the heat or add more kindlings—a turn of the button does it all for you.

From every standpoint the electric range provides the ideal way of cooking.

If you are not already acquainted with the advantages of cooking electrically—or if you want to know more—come to our practical demonstration of electric cookery at our Norway store—it is now going on and will continue until Saturday night, May 26.

Just come, look around and listen—we do not ask you to buy.

REWARDS FROM THE GARDEN

Five years ago at this time the country was being combed for gardeners. The family that did not spade up its back yard and raise a few vegetables was thought to be failing to do its share to support the government. "Food will win the war" was the admonitory slogan that faced us at every hand.

Many people who had felt that they had got beyond the gardening stage, got out and delved in the dirt. It seemed back-breaking work at first. It was a kind of game, in which you fought the adverse conditions of weather and bugs, and there was a sense of pleasure in winning a little success in it. A man who had a good plot of eatable vegetables could feel he was making a little contribution to the great cause.

But this gardening enthusiasm fell off when the war closed. Many cultivated back yards were seeded to grass again, and others were carefully allowed to grow up to weeds. In their easy going way, the American people have concluded that they can get along, even if they do not add anything to the family income by useful garden products.

A well tended garden has many rewards other than the cash value of the product. It promotes the habit of free vegetable eating, and the doctors say supplies certain elements that the body needs.

Men and women are built so that they need active exercise. They get certain stimulus and contact with fresh air as the result of such pleasure as automobile riding, yet something that stirs up sluggish muscles accomplishes more for physical welfare. A well tended garden is a source of pride and pleasure, and contact with the soil seems to make people hopeful and normal and divert the mind from care and worry.

WHAT IS HOME?

Ask the above question of any person you chance to meet, who has wandered from home, and in nine cases out of ten the answer will be that Home is a green spot in memory, a center about which the grandest recollections of his life revolve, yet something that stirs up a grief oppressed heart cling with all tenderness of youth's first love. Home has an influence which is stronger than death. It is law to our hearts and binds us with a spell which neither time nor change can break. Not merely friends and kindred remember that home as dear, but the very hills and streams throw a charm around the place of one's nativity. It is no wonder the grandest harps are turned to sing of "Home Sweet Home." No songs are sweeter than those heard among the boughs that share our parents' dwelling when some evening hour found us gay as birds warbled o'er us. We may wander away and mingle with the world's strife, form new associates and fancy we have forgotten the land of our birth; but as we listen, perhaps to the summer wind, the remembrance of other days come over the soul and fancy bears us back to the childhood days and home. We may find climes as beautiful and friends as dear, but they will not usurp the place of "Home, Sweet Home."

Norway and Vicinity

(Continued from Page 1)

Helen Holmes attended the Librarian's Convention at Auburn Tuesday and Wednesday. Josephine Chase substituted at the Norway Public Library during her absence.

Shirley "Hick" Milliken landed a fine red spot at Norway Lake bridge, the first one caught there this season. The trout weighed one pound and nine ounces.

Milletville and Crockett Ridge

The grass is growing fine this weather, but it makes planting late on account of so much rain and cold.

Dennis Pike is setting out a large orchard, repairing the building and planting many pretty flower beds around the yard and stone walls and making a very pretty place of the Charles Sewell Penley farm which he purchased last year.

Mr. and Mrs. W. V. Kneeland of East Waterford visited their daughter, Mrs. F. J. Lovejoy and family, recently. Mrs. Kneeland is in very poor health.

Lucy A. Cushing of West Bethel visited her nephew, S. S. Westleigh and wife last week. She was on her way to Nova Scotia to spend the summer with her brothers and sister there. She also visited at her daughter's in Portland for a few days, and is expected back in September.

Mr. and Mrs. Arthur Morrill visited her mother, Mrs. A. G. Lovejoy and brother and family, Sunday.

Mr. and Mrs. H. M. Jackson were visitors at Mrs. A. G. Lovejoy's recently.

Alpheus Jackson was in the neighborhood selling tickets for the entertainment to be held at Crockett Ridge school on Tuesday evening.

Elizabeth Jackson spent the week end with her cousin, Eva Marion Jackson.

George S. Westleigh has taken a popular job of Jackson brothers.

Alfred L. Merrill has hired out to work for G. S. Westleigh for the summer.

Reg Dismore has moved back on the old home farm on Crockett Ridge.

Arthur Buck and wife passed through this place last week with some fine looking guernsey heifers which they were taking to pasture for the summer season.

Many autos pass through Milletville now that the roads are passable, as it makes a very pretty drive through the farming section and return by way of West Paris or Noble's Corner.

C. Lindsay Morse and wife and son Charles spent the day at Rust Jackson's recently.

Douglas Cushing of West Bethel was at George S. Westleigh's recently, he also called at Mrs. A. G. Lovejoy's.

The Milletville "school-marm" was awakened from her household duties Saturday evening by Maybasket hangers. A large grape basket full of all kinds of goodies was hung over her head.

A good chase and jolly time were enjoyed.

Mr. and Mrs. Z. L. Merchant were in this neighborhood, Sunday, on their annual summer ride through the country.

The busy summer season has begun in Milletville. The hum of the big Fordson tractor at work on the Jackson farm, sounds, at a distance, like a huge airplane flying over.

The pleasure seekers in their sparkling new sport cars, the "wild west" stunts at horse-back riding and the joy rides in the rambling little Fords make the summer season here a jolly one full of pleasure and fun.

Even the little spotted pony has his place among the rest with his young master at his bridle to guide him safely along the road while the ladies enjoy a ride on his back.

Mrs. George S. Westleigh has had several orders for white rock chicks this spring which she is unable to fill. She intends to enlarge her flock and be ready another spring with more incubators so to supply her orders as much as possible. They make the finest of poultry.

Alfred Merrill and George Skinner sprayed the P. M. Walker orchard last week; he has several hundred trees.

FOR GRANDPA'S SAKE

My grandpa went to war long years ago—I never saw him, but they told me so, And how after a battle, and news came, Among the "missing" was my grandpa's name. They never heard of him again, they said, And so we know that grandpa must be dead; And when I think of him so good and brave, I wish we knew just where he found a grave. When Decoration Day comes every year, I feel so sad and sometimes shed a tear, To see the soldiers' graves all spread with flowers While grandpa's cannot have one rose of ours. Go if some little Southern girl should know, A nameless grave where blossoms never grow, I'd love her so, if there some flowers she'd lay For grandpa's sake this Decoration Day. Ida F. Keniston, So. Norway and Vicinity

(Continued from Page 1)

Helen Holmes attended the Librarians' Convention at Auburn Tuesday and Wednesday. Josephine Chase substituted at the Norway Public Library during her absence.
Shirley "Dick" Milliken landed a fine red spot at Norway Lake bridge, the first one caught there this season. The trout weighed one pound and nine ounces.

Millettville and Crockett Ridge

The grass is growing fine this weather, but it makes planting late on account of so much rain and cold.

Dennis Pike is setting out a large orchard, repairing the building and planting many pretty flower beds around the yard and stone walls and making a very pretty place of the Charles Sewell Peasey farm which he purchased last year.

Mr. and Mrs. W. V. Kneeland of East Waterford visited their daughter, Mrs. E. J. Lovejoy and family, recently. Mrs. Kneeland is in very poor health.

Lucy A. Cushing of West Bethel visited her nephew, S. S. Westleigh and wife last week. She was on her way to Nova Scotia to spend the summer with her brothers and sister there. She also visited at her daughter's in Portland for a few days, and is expected back in September.

Mr. and Mrs. Arthur Morrill visited her mother, Mrs. A. G. Lovejoy and brother and family, Sunday.

Mr. and Mrs. H. M. Jason were visitors at Mrs. A. G. Lovejoy's recently.

Alphus Jackson was in the neighborhood collecting tickets for the entertainment to be given by the Crockett-Ridge school on Tuesday evening.

Elizabeth Jackson spent the week end with her cousin, Eva Marion Jackson.

George S. Westleigh has taken a popular job of Jackson brothers.

Alfred L. Morrill has lined out to work for G. S. Westleigh for the summer.

Reg Dinsmore has moved back on the old home farm on Crockett Ridge.

Arthur Buck and wife passed through this place last week with some fine looking guernsey heifers which they were taking to pasture for the summer season.

Many autos pass through Millettville now that the roads are passable as it makes a very pretty drive through the farming section and return by way of West Paris or Noble's Corner.

C. Lindy Morsar and wife and son Charles spent the day at Rust Jackson's recently.

Douglas Cushing of West Bethel was at George S. Westleigh's recently, he also called at Mrs. A. G. Lovejoy's.

The Millettville "school-marm" was awakened from her household duties Saturday evening by Maybasket hangers. A large grape basket full of all kinds of goodies was hung to her by her scholars. A good chase and jolly time were enjoyed.

Mr. and Mrs. Z. L. Merchant were in this neighborhood, Sunday, on their annual summer ride through the country.

The busy summer season has begun in Millettville. The hum of the big Fordson tractor at work on the Jackson farm, sounds, at a distance, like a huge airplane flying over. The pleasure seekers in their sparkling new sport cars, the "wild west" stunts at horse-back riding and the joy rides in the rambling little Fords make the summer season bid fair to be a jolly one full of pleasure back here in the country. Even the little school-boys have their place among the rest with his young master at his bridle to guide him safely along the road while the ladies enjoy a ride on his back.

Mrs. George S. Westleigh has had several orders for white rock chicks this spring which she is unable to fill. She intends to enlarge her flock and be ready another spring with more incubators so to supply her orders as much as possible. They make the finest of poultry.

Alfred Merrill and George Skinner sprayed the P. M. Walker orchard last week; he has several hundred trees.

FOR GRANDPA'S SAKE

My grandpa went to war long years ago—I never saw him, but they told me so. And how after a battle, sad news came. Among the "misses" was my grandpa's name. They never heard of him again, they said. And so we know that grandpa must be dead. And when I think of him so good and brave, I wish we knew just where he found a grave. When Decoration Day comes every year, I feel so sad and sometimes shed a tear. To see the soldiers' graves all spread with flowers while grandpa's cannot have one rose of ours. So if some little Southern girl should know. A nameless grave where blossoms never grow, I'd love her so, if there some flowers she'd lay For grandpa's sake this Decoration Day.

BOY SCOUT NOTES

Canton Boy Scouts on Evening Hike
The evening hike taken by Troop No. 1, Canton, turned out to be 100 per cent. O. K. Supper heathes the stars followed by a Campfire makes a program that appeals to any red blooded scout. Scout master W. L. Chase was in charge for the evening.

First Class Cooking Tests were passed by Earl Tilley, Leo York, Frank Patterson, Russell York, Sebastian Lavorgna, Stanley Fisher passed second class cooking. Firebuilding tests were successfully completed by Earl Child and Ralph York.

The following Good Turns performed by Canton Scouts are well worth mentioning as representing true scouting spirit. On Canton's clean-up day, last Saturday, Troop No. 1 turned out in good numbers and spirit and assisted in the work with rakes, shovels, etc., as well as furnishing two teams. As the time of the first at the Canton high school building, Troop No. 1 played a follow-up hand and carried away all wreckage and entirely cleaned up the remains from the fire.

Buckfield Scouts Hiked to Basin Falls
The morning was warm and Troop No. 1, Buckfield, started on the hike, Saturday. Through the woods past Basin Falls to Bennett's foldspare took up one interesting hour. After witnessing the effects of one good blast, the Troop returned to Basin Falls and ate dinner. A swim in the big pool will be remembered well as a pre-dinner appetizer. "Oh Boy! the water's fine!"

Following dinner came the Bird Study Round-up. Team No. 1, Sidney Hutchinson, Gordon Bennett, Jim Packard won with a list of twenty birds. Team No. 2, Clinton Briggs, Arnold Jacobs, Ed Irish, took second place with a list of sixteen birds. Birds as follows: kingbird, red-winged blackbird, bank swallow, vesper sparrow, barn swallow, song sparrow, robin, chipping sparrow, junco, phoebe, partridge, oriole, crow, yellow hammer, chickadee, thrush, chimney swift, American goldfinch, white throated sparrow.

Safety First—Carry a Match Safe!
Any scout wishing to go on the first class hike to Wild River and White Mountains June 18th-23rd, must show as his passport: O. K. as First Class Scout and carry a match safe. Failure to show either will bar scout from trip. This is the time of year to "be careful with fire." All up-to-date scouts will not be caught without a metal match safe.

Oxford County Scouts have adopted the first Forest Fire Prevention slogan, and are being instructed in the proper handling of camp fires to prevent spreading. They are also learning how to control and extinguish fires should they accidentally escape from bounds.

Scout Exhibit on Display
The fine exhibit of West Paris and South Paris Scouts at the Oxford County Teachers' Association meeting at South Paris, May 18, is in the window at Eastman & Andrews', scout outfitters, South Paris. Among the articles are moths and butterflies, wood collection, wood carvings, minerals, taxidermy, carpentry, model aeroplanes, 130 pieces constructed by Edward Farrington, So. Paris troop; drawing, beaver cuttings, butterfly trays; Sidney Perham, West Paris; Flag It, Arrowheads, machinery, tool chest, H. Swett, South Paris.

Arbor Day
Henry Favor
Arbor Day was originated in Nebraska about 1872. There were many trees there so this governor set aside a day to plant trees. In 1879 there were twelve million trees planted there.

Arbor Day is a day set aside to plant trees and look after the trees that are already planted. It is especially important in Maine because we have so many trees that are being cut every year.

The best time to plant trees is as soon as the frost is out of the ground and before the buds begin to open. For this reason Arbor Day comes about the middle of May in Maine.

In lots of places on Arbor Day each pupil plants a tree on the school grounds or in some pasture or park near-by. The kind and amount of the trees planted depends on the place you are putting them, what they are for, and how much money you have if you are going to buy seedlings.

Maples are a good kind of tree to plant because they grow fast, look good, and give good shade. When you want a tree just for ornamental purposes the fir or spruce are good.

Arbor Day
Stanley Murch
In the state of Nebraska, way back in 1872, the people saw the plains of their state needed trees to be used as wind-breaks and other things. Their governor set aside one day in every year for the planting of trees. One year the people planted twelve million trees.

Later other people and states took the idea and, finally almost every state set aside a day for the planting of trees. This day was called Arbor Day.

In the state of Maine Arbor Day comes in the middle of May.

The trees of Maine are used for ornamental purposes, lumber, pulp, and many other things.

The chief losses of trees in Maine are from forest fires. These fires are almost wholly caused by carelessness. They could be prevented very easily, should the people think when they built a fire or in any way used fire.

Arbor Day
Kathryn Richardson

Arbor Day originated in Nebraska in 1872. Nebraska was a prairie state and didn't have any trees. Governor Morton suggested the planting of trees and called it Arboriculture or tree agriculture.

In 1874 Nebraska had 12,000,000 trees planted, 75 different kinds in all.

The sequoia trees in California are the largest trees and are about 5,000 years old.

In some states Arbor Day is observed in April but in most states where it isn't warm enough in April they observe Arbor Day in May.

In planting trees they should be put in the ground so that the roots will not curl and grow upward. The hole should be big enough so that the roots will lay out straight.

The trees are planted for beauty, shade, and fruit trees are planted for their fruit. The maple trees are mostly for shade, the fir for beauty, and there are different kinds of fruit bearing trees.

Arbor Day
Evelyn Davis

Betty came running in from play and begged her grandfather to tell her a story. "I will tell you," he began, "of a time my brothers and I had many years ago on Arbor Day."

"What do you mean by Arbor Day grandfather?" Betty said. "Well, Arbor Day is a day set aside for planting of trees. If we didn't plant trees, Betty, just think, where would the birds live, and where would we get our beds, chairs, tables, wood for burning and millions of other things that we use every day? Arbor Day began in Nebraska and twelve million trees were planted in one year."

"Now Betty, here's the story. Bob and I were going to visit Aunt Edna on Arbor Day and set out a tree. Aunt Edna had two boys and they were both full of fun. James, the youngest of the two, was to ride into town and into the tree we were to plant. We were waiting patiently for him to return, when a farmer, one of the neighbors, rode up in a rickety farm wagon and said that he had just been to town and had brought back our tree."

"It was a pretty little tree but we all agreed that we should have to wait for James."

Aunt Edna and I went into the house leaving Bob, my brother, and my other cousin with the tree.

We hadn't been in the house long when rumble, rumble, came the wheels of the wagon and lo! James had returned. "See the tree!" he exclaimed, and jumped out of the wagon with a small tree in his hand.

"Now that's funny," said Aunt, "we have got one tree and were waiting for you to come and help us plant it."

"Oh, dear me," said James, "it's a pity I forgot to tell you that Uncle was going to send us a tree, too."

TO EXPECTANT MOTHERS

A Letter from Mrs. Ward Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Springfield, Ohio.—"Lydia E. Pinkham's Vegetable Compound proved a splendid medicine for me before my fourth child was born. With the first three I had been sick and weak, and had sick headaches twice a week. I couldn't keep enough food down to do me any good, and my work was left undone many a time. My sister-in-law told me to take the Vegetable Compound when I began to have the same old dreadful sickness and headaches and was so worn out. Since then I have only had two headaches, had a good appetite and scarcely lost a meal. I have a fine healthy baby girl who has never had a sick day. The nicest part is that I am healthy, too. It did me a lot of good, and if I should ever have another baby I will take your medicine at once."

Where Are You Bound? In our Union Suits there is no binding

Every wearer of underwear knows that when a Union Suit takes the notion into its seams to pinch, that it can be as binding as a first mortgage.

But every man who wears one of our Union Suits knows that it couldn't bind if commanded by the government.

The difference is in the fit—and here you have the reason why we sell so much Underwear year after year.

But the point is—if you buy one of our union suits you're bound to get a fit. They are priced right.

H. A. SNOW'S HUNTING BIG GAME IN AFRICA

with Gun and Camera

The Snow African Expedition left San Francisco in 1919. Returned 1922, totalling 80,000 miles on the trip.

The expedition "shot" over 125,000 feet of motion picture film and made more than 4,000 still photographs.

All photographic developing was carried on at night as the day temperature was hot enough to melt the film the minute it touched the water.

More than fifty distinct species of animal life shown in "Hunting Big Game in Africa with Gun and Camera."

As horses cannot live in the tsetse fly region, all hunting previously had been done on foot.

H. A. Snow employed the novel use of a Ford, penetrating the very heart of the jungle with his "tin lizzie."

The city of Oakland, Calif., is erecting a museum which will cost in the neighborhood of \$1,000,000, to be named after H. A. Snow and to house his marvelous collection of specimens.

This is the picture that ran for three solid months at the Lyric Theatre, N. Y. C., at \$1.65 per seat.

ANDOVER
Obituary
In the week of February 22, 1923, in South Paris, died the death of William C. Poor and his sister, Addie P. Gregg. Both were children of the late Sylvanus Poor of Andover, Me.
Mr. Poor was 76 years of age. He has not lived here since early manhood but for several years he has spent his summers here, and was always keenly interested in whatever contributed to the welfare of the town. He was actively associated with the Congregational church and Grange when here, and kept in touch with them when away. The keynote of his entire life was "Service."
His wife, Hattie Smith Poor died May 28, 1911, in Port Chester, New York. He leaves three sons and one daughter. Fred A. Poor, Montreal, Quebec; Mrs. Romaine Hoffman, North Paris, Pa.; and Samuel S. Poor, Brooklyn, New York, and Andover, Maine.
One sister, Mrs. Mary Fox, Dorchester, Mass., also survives him.
His sister, Mrs. Gregg, left Andover many years ago. During the last ten years, she has lived with her daughter in Seattle, Washington. She always had a great love for her childhood home, and has visited here in recent years. She was universally loved by those who knew her, and during the suffering of her last days she was, as she had always been, brave and uncomplaining. Besides her sister, she leaves one daughter, Marjorie O. Gregg. Funeral services will be held for Mr. Poor and Mrs. Gregg at the "Homestead," Andover, Maine, on Decoration Day at 10:00 A. M. The family invites all friends of Mr. Poor and Mrs. Gregg to attend. Interment at Woodlawn Cemetery.

FRYEBURG

New Bank Dedicated

Fryeburg certainly had a fine time Friday. It was the red letter day for the staff of the Fryeburg Trust Co. the dedication of the new Bank. Many came in autos from Portland and all of the citizens of Fryeburg and adjoining towns were present from 2 to 6 P. M. to inspect the beautiful new building that is an ornament to the town.

Much credit is due Alvin Merrill, Manager of the Fryeburg Trust Company for his untiring efforts during the construction of the new building. He has worked early and late and in many ways assisted in expediting the work. Each lady guest who attended the opening Friday was presented with a box of candy and a pink and the gentlemen received a cigar. Many beautiful flowers were sent from different banking concerns and from the Directors of the Portland Trust Company.

The beautiful Bank with its fresh new fixtures and finish was a bower of beauty. The staff have reason to be proud of the dedication as well as the town. They are "all set" and doing business at the new Bank.
